ABOUT MENTORS

UDIT MAHAJAN

With over 5 years of market experience, trading has become more than just a profession—it's my passion.

I've dedicated my career to mastering the art of trading, specializing in four core areas: Institutional trading, Liquidity trapping, risk management, and trading psychology—the pillars of consistent success in the markets. My guiding principle? Treat trading like a business.

This mindset keeps emotions in check—avoiding the highs of big wins and the lows of temporary losses.

Beyond trading, I've been an early investor in cryptocurrencies, and I actively encourage others to explore long-term investing as a path to wealth creation.

SIDDHARTH

With over 4 years of experience in the markets, trading has evolved from a profession into a true passion. I've committed my career to mastering the craft, focusing on four key pillars: institutional trading, liquidity trapping, risk management, and trading psychology—each essential to achieving consistent success.

My core philosophy is simple: approach trading as a business. This mindset helps me stay emotionally grounded, avoiding the extremes of both big wins and temporary setbacks.

Outside of trading, I was an early adopter of cryptocurrency investments and continue to advocate for long-term investing as a powerful strategy for building wealth.

COURSE MODULE

LEARN

Start from the fundamentals and progress to advanced strategies—our all-in-one program is designed to equip you with the skills and confidence needed to navigate the markets successfully.

OUR STUDENTS

The best mentors I could have ever asked for! This course has helped me gain the confidence that I can definitely build a career in trading.

-Rishika

I really appreciate how you've made trading easier for me. Your academy came as a game-changer, especially after facing continuous losses and thinking about giving up. Now thanks to your guidance, I feel like a confident trader ready to take on the market.

-Anshul

OUR STUDENTS

I wanted to let you know that this course was really worth it. The explanations were clear and now I can trade confidently. Cheers!

- Sukh

The psychology part was the best. Earlier I was not able to control my emotions in trading. However, after taking this course, your tips have helped me a lot in building a strong trading mindset.

- Vansh

Thumbs-up for this course! The way you made us understand every important topic was just awesome. Thanks!

- Ishika
